

Who Else Would Like To Build A Successful Business Using The Internet!

Dear Friend,

A year ago I discovered an incredible system to build a successful Online business. Using this system I've managed to convert a **Built-It-Yourself Web Site** into just a Phenomenon that earns income monthly and this is just the beginning!

No kidding. If you can move a computer mouse, you can build a Business Web site that generates free targeted, motivated traffic of willing-to-buy visitors from the Search Engines & PPC campaign -- no html, cgi, perl, ftp, Search Engine mastery, or javascript knowledge needed. Point-and-click construction saves you buckets of time!

I'm now ready to share my secrets with anyone who might be interested in having the same level of success.

I'm inviting you to a **Seminar Information Session** where I'll let the cat out of the bag. This will be 90 minutes of me sharing with you how I've built this Online business and how you can do the same. There will also be an opportunity to ask me any questions you might have.

All you need to bring to this **Seminar** is your **Brain And Motivation... "BAM"** in order to build a profitable Online Home-Based Business on just about any TOPIC you can possibly imagine with no technical skills using the Internet. This is not a Get Rich Quick scheme, HYIP, MLM, nor Referral program.

You'll be mentored every step of the way by a Net Marketing Visionary, **Ndifreke Atauyo** (CIW, IWA, Seminar Speaker, Internet Business Consultant, **BESTSOFTNIGERIA.NET MVP**, & Admin/Webmaster for: Mosesessionforgovernor.org, Aksgovernor2007.org, BestofPortharcourt.com, Downloadfree-ebooks.com, RTC211.com, GeoEstate4Real.com, LearnTheWealth.com, Ericea.com, KomzyGirlRealEstate.com, MoneyVersion.com, TegalInsurance.com and several others).

If you can use e-mail and surf the **Web**, you can create a professional-looking, traffic-generating, sales-producing site. The eBusiness process is based upon **CTPM**; the fundamental reality of the way people use the Web... To Succeed Online, You Must Start Where They Start. You Can Do It, no experience needed! With a click of the mouse, you can instantly install a Database Membership Website script without any programming knowledge.

I guarantee that after this **Seminar** you **WILL** understand how to create a highly successful and profitable home-based Internet Business... or grow your existing business with a Web Site that **WORKS**... most importantly, you're going to have fun doing it.

Please respond immediately as I can only accommodate hundred people. Thank you!

To Your Online Success!

Ndifreke Atauyo
